# ASIST Tune-Up

## Applied Suicide Intervention Skills Training Ed. 11 Refresher

Canadian Mental Health Association/P.E.I. Division is hosting a **half-day ASIST Tune-up** (Applied Suicide Intervention Skills Training).

Every few years, ASIST participants need to 'tune-up' their suicide intervention skills in a refresher workshop. The ASIST Tune-Up Workshop focuses on tuning-up and practicing the skills learned in ASIST - how to recognize opportunities for help, to reach out and offer support and to apply the 'pathways for assisting life' (PAL) model, linking a person with thoughts of suicide to the appropriate community resources.

In order to participate in this refresher, you must have completed the two-day ASIST Workshop; Edition 11 (offered since 2014). If you are unsure when you took your ASIST training, the date can be found on your ASIST Certificate.

If you received your ASIST training prior to the Fall of 2014 it is recommended you take the full two-day training in order to obtain your ASIST re-certification. Please see our website ([www.cmha.pe.ca](http://www.cmha.pe.ca)) for our next ASIST workshop dates.
